### Analysis of Joao's email

- Propose 3-4 scenarios on the Internet beyond 2015
  - What if questions
    - What if every cell phone is equipped with sensing devices
    - What is public transportation is equipped with sensing devices
    - ...
    - or
    - GENI/NESSI – engineer, scientist, economist ask questions
  - Petros to send presentation
  - Highlight conflicting trends
  - Concrete research topics for each scenario
  - Testing and experimental facilities
  - By 30<sup>th</sup> January
- 6<sup>th</sup> February caretaker meeting → Mirko will attend
- Scenarios from SENSEI and ASPIRE could be used
- Caretaker will generate a scenario by 23<sup>rd</sup> January

### Structure of RWI (caretaker, topics & whitepaper)

- Caretakers – Manuel recalled the way the caretakers joined in the RWI
- We need committed persons as caretakers
- One caretaker per project
- Up to Prague: Neeli, Manfred and Mirko will take the caretaker roll
- Srdjan, Petros will take supporting roles
- Following Prague we can rotate the caretaker roles

- Could get an infrastructure for the RWI from DERI for file sharing, etc.
- Whitepaper (aiming for 15-20 pages)
  - Scenarios – what if?
  - 5 topics → need editors for each topic
    - → define the titles for the topics with a paragraph describing them
  - Roadmap from a RWI perspective
    - Steps to get there
    - Open issues
  - For the whitepaper we should involve projects that work on roadmaps
    - → Manfred to add projects that develop roadmaps CONET
