AGENDA

- Discuss Scenario Document
- Presentation for 6th Feb
- Dublin WS
- EPoSS WS

MINUTES

Participants

- Mirko Presser
- Manuel Mateo
- Manfred Hauswirth
- Srdjan Krco

Discussion of RWI scenarios

Scenarios are completed, but:

- Ask Stamatis for energy scenario to be added on the wiki, this is more a service, how to use RWI to make the energy management more efficient.
- Making RWI green is a challenge not a scenario.
- Ambient Assisted Living is already included in the other scenarios
- We now have 4 scenarios that are representative, but we should still add the Energy Scenario from Stamatis. → **Manfred**
- Waste management could be added? (recycling, logistics) → resource management → will be necessary for waste management
 - End of life directive (need to recycle X% of a car), puts the burden on the manufacturers
 - **Manuel** to find a contact person for this scenario.

Presentation for 6th Feb

- **Mirko** will present the 4-5 scenarios – slides by 5th Feb
- **Manuel** to send Mirko a wrap up of a preparatory meeting (Wed)

Workshop in Dublin
