

Call for Papers
Future Internet Architectures:
New Trends in Service Architectures (2nd Euro-NF Workshop)
Open Workshop, Santander, Spain, 9th June 2009
<http://www.net.fim.uni-passau.de/future2009/>

Co-located with EU ICT MobileSummit 2009
<http://www.ict-mobilesummit.eu/2009/>

Limitations and shortcomings of current networks are subject to the Future Internet research area. Novel challenges such as security, scalability, resilience, interoperability, and adaptability have risen. The architecture of the Future Internet must consider emerging network paradigms.

The workshop provides a visionary forum for novel research challenges in the design and evaluation of network paradigms for the Future Internet with a particular focus on access networks. Topics of interest include, but are not limited to, the following:

- Wireless mesh networks
- Self-organization
- Internet of things
- Virtualization
- Delay-tolerant networks and satellite communications
- Opportunistic networks
- Context awareness . new network approaches and protocols

Submissions to the workshop should be either full papers (up to twelve pages, Springer LNCS style) or extended abstracts (up to four pages) presenting original research in the workshop scope. Selected high-quality contributions will be asked for full paper submissions (post workshop proceedings), to be published e.g. in Springer LNCS or a special journal issue (to be announced soon).

Dates

- Submission Deadline: April 13, 2009
- Notification of Acceptance: April 20, 2009

Chairs

- Hermann de Meer, University of Passau, Germany
- Jens O. Oberender, University of Passau, Germany
- Karin Anna Hummel, University of Vienna, Austria

Local Organization

- Klaus Hackbarth , University of Cantabria, Spain

Program Committee

- Claudio Casetti, Politecnico di Torino, Italy
- Matteo Cesana, Politecnico di Milano, Italy
- Piotr Cholda, AGH University of Science and Technology, Poland
- Falko Dressler, University of Erlangen, Germany
- Xiaoming Fu, University of Göttingen, Germany
- Alex Galis, University College London, United Kingdom
- Günter Haring, University of Vienna, Austria
- Helmut Hlavacs, University of Vienna, Austria
- Amine M. Houyou, Siemens AG, Germany
- Paul Müller, University of Kaiserslautern, Germany
- Ilkka Norros, VTT Technical Research Centre of Finland
- Adrian Popescu, Blekinge Institute of Technology, Sweden
- Bernd Reuther, University of Kaiserslautern, Germany
- Susana Sargento, University of Aveiro, Portugal
- Kurt Tutschku, University of Vienna, Austria
- Bernd Wolfinger, University of Hamburg, Germany
- Patrick Wüchner, University of Passau, Germany
