

PhC #7 23/01/09 1000-1100 CET

AGENDA

- Discussion of RWI scenarios
 - Mirko and Manfred's proposals
 - FISE scenarios
 - Slides from Petros
- WS in Dublin
- AOB

MINUTES

Participants

- Mirko Presser
- Manuel Mateo
- Manfred Hauswirth
- Srdjan Krco
- Petros Daras

Meeting minutes form last meeting

Discussion of RWI scenarios

RWI current format:

- story based with some more generic introduction
- technical challenges

Some more background from Manuel – Commission is now discussing the format of the scenarios – a template might be suggested. Technical Challenges need to have some road mapping included (5yrs, 10yrs, 15yrs?). 3-4 scenarios per area, but the quality should be there – the scenarios should be representative of the area (i.e. RWI).

FISE scenarios are following an interesting approach. RWI currently has two scenarios – transport topic and health care topic, we could expand:

- Social Networking dimension?
- Economic/business dimension?

Traffic shaping scenario could be used to show a technology roadmap.

RWI new format:

- Introductory paragraph for the RWI scenarios – AP7.1 Manfred to draft
- 3-4 Stories (add stories on social networking – AP7.2 Manfred, and working/enterprise environment – AP7.3 Mirko/Manfred)

- Common Technical Challenges (as 80-90% of the tech challenges are similar from scenario to scenario) – AP7.4 Mirko to look at Manfred's suggestion
- Specific Technical Roadmap (for Traffic Shaping) – AP7.5 Mirko

Workshop in Dublin

Manfred to discuss with John (Intel).

ACTIONS

AP6.1 – 1 page scenario till 23rd January – RWI caretakers – inputs from Mirko, Manfred and Petros

AP6.2 – write email to the RWI sketching the way forward – Mirko – done

AP6.3 – share skype names

- mirkoprasser - Mirko
- pooh42 - Manfred

AP7.1 – Scenario document Intro paragraph – Manfred 02/02/09

AP7.2 – Scenario on social networking – Manfred 02/02/09

AP7.3 – Scenario on Enterprise – Mirko 02/02/09

AP7.4 – Revise Tech Challenges – Mirko 02/02/09

AP7.5 – Roadmap for Traffic Scenario– Mirko 02/02/09

Next Meeting

No meeting has been scheduled

02/02/09 1100-1200GMT
