### **Position Paper:**

The vision of the RWI is unclear at present. We need to add what is special about the RWI compared to Future Content Networks, Identity and Trust, Service Offering, etc; consolidating our vision with the applications and users of the RWI. AP --> Mirko will provide a new draft and Petros will comment.

We need to focus our scope. It was suggested that we focus on three aspects:

- Context and Information (Nigel to provide a first draft)
- Management and Network Scalability (Mirko to provide a first draft)
- Security, Privacy and Trust (Ingrid will provide a first draft)

### **Actions**

5.1 Revised vision for discussion --> Mirko (01/12)

5.2 Descriptions of main focus topics --> Mirko, Nigel and Ingrid (03/12)

5.3 Finalise Position Paper by 5th December --> ALL
