

PhC #4 24/11/08 0900-1000 CET

AGENDA (approved 24/11/08)

- Round table
- Approval of Meeting MINUTES from previous meeting, AGENDA and Actions
 - Action 3.6, the names of reviewers that self-nominated during PhC#3 has been added to the list (5th November 2008).
 - Action 3.8 - Claudia Diaz
- update from caretaker meeting
- final agenda (detail)
- pre-conference workshop at ICT MCS
- Consultation on IoT - feedback from RWI? You can find the text [here](#)
- Discussion of the Position Paper - Research Orientations
- FIRE use cases from RWI

Participants

- Mirko Presser
- Manuel Mateo
- Nigel Baker
- Hans Schotten
- Neeli Prasad
- Ingrid Verbauwhede
- Srdjan Krco

MINUTES (approved 28/11/08)

Introductions were made between Nigel Baker, Hans Schotten and Neeli Prasad and the meeting AGENDA was approved.

Update from Action Points:

- Speaker for Privacy and Trust --> Claudia Diaz
- Position Papers will be made available (AP 4.1) by Manuel (links)
- Prague Papers --> 3 papers from RWI were submitted (in contrast twice as many for the other BOs)

Update from Caretaker meeting:

- The RWI BO needs more support - the current level of collaboration and active participants is too small
- Madrid will be a key event and if there is not enough support, the BO will be terminated

In the PhC this point was discussed and the conclusion is that we should (easily) be able to get support for this activity. The participants of the PhC have identified a list of potential points of contact to find more support:

- CuteLoop --> Neeli
- SENDORA --> Manuel
- WISEBED --> Manuel
- EpoSS --> Manuel
- from Media --> Manuel
- from Embedded Systems --> Mirko
- Prime Life --> Ingrid
- AAL projects --> Nigel
- Smart Factory domain --> Nigel
- M-Ciudad --> Mirko
- Pervasive Adaptation --> Nigel

In addition, we need to work on the Position Paper with deadline 1st Dec - identify the pillars supporting the RWI, and describing the scope in comparison to IoT and IoS in particular.

Finalisation of AGENDA:

See new [AGENDA](#)

- Action to add an abstract for the invited talks (Ingrid/Nigel)
- Add an invited talk on pervasive adaptation (Nigel) --> find speaker
- FIRE proposals from Neeli and Srdjan
- Panel - inform the panelists (email addresses to Neeli) and create a questionnaire for the audience to ask for input on first day for the panel on second day; also discuss topics with panellists

RWI conference: It was decided not to hold a RWI conference in conjunction with ICT MCS, instead we will organise a RWI workshop early next year in a EU capital.

Next PhC #5: 28th November 1500CET - AGENDA and details to be sent by Mirko

Actions

- 4.1 provide links to all position papers to wiki --> Manuel
- 4.2 contact possible RWI interested projects/persons/organisations --> as listed above
- 4.3 position paper, inputs from Nigel on pervasive adaptation, Neeli on general scope, Ingrid on link with Privacy and Trust
- 4.4 Ingrid to provide abstract for Invited Talk 2 and Nigel for 3

4.5 Neeli and Srdjan to provide inputs to FIRE
4.6 emails to Neeli of hte Panellists
